Alicatt® E-602

Total capacity of the double hopper: **600 litres**

Loading capacity: **400 kg** (2 × 200 kg)

Powerful engine: 1 700 W

Very easy to use

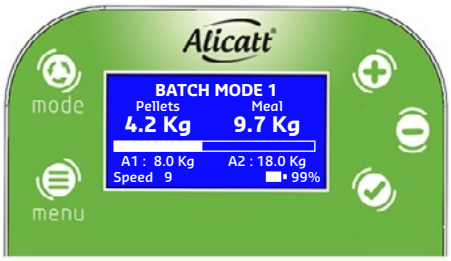
Visibility of the distribution area

Easy to manoeuvre, ergonomic and user-friendly

Wheels, driveability and traction adapted to any type of farm

Increased profitability owing to improved distribution accuracy (flour, cereals and pellets)

Owing to its reduced height, it is suitable for most silos and does not require any modification



TECHNICAL CHARACTERISTICS

height	125 cm
width	105 cm
length	179.9 cm
hopper volume	600 litres
maximum permissible load	450 kg
tare weight (with batteries 14.2 kg × 2)	290 kg
max. speed - forward speed	5 km/h
max. speed - reverse speed	3 km/h
front tyres	pneumatic
rear tyres	pneumatic
batteries	2 × 12 V 60 Ah
motor, motorized axle	24 V 1.7 kW
motor of distribution auger	2 × 24 V 300 W
diameter of distribution auger	102 mm
